Corrosive Substance Storage Cabinet

Thank you for using our products. As a company of caring employee safety and environmental protection, SYSBEL provides high quality products to ensure the safety of your working environment and personnel.

SYSBEL Corrosive Substance Storage Cabinets are made of chemically resistant, 8mm polypropylene (PP) panels for the storage of corrosive substances. Fully welded, liquid-tight sump contains accidental spills and is compliant to the requirement of EPA 40 CFR 264.175.

Description

1. Constructed of 8mm polypropylene(PP) panels, offering superior protection against harsh acid, alkali and corrosion.
2. Adjustable and reversible shelves meet diverse choices of users.
3. Formed with bent plates to make it stable and prevent from being out of shape.
4. Poly hinges and embedded door handles means there are no metal parts to corrode.
5. Divided into two parts to store different chemicals, making good use of storage space(48 Gal only).
6. Provided with independent vents which can be connected with exhaust systems.
7. Fully welded, liquid-tight 150mm sump contains accidental spills and has certification with EPA regulations.
8. Door hasp accepts padlock to achieve double locks for security against unauthorized use.
9. Equipped with adjustable steel leg levelers on all four corners to keep the cabinet level.
